Payment status page:

Payment status page shows

- 1) The payment status of each active table. It shows the table number, total bill amount, the amounts already paid, and the remaining to be paid.
- 2) The box color can be yellow or grey. Yellow indicates that the table is still active. Grey indicates that the table has been paid in full.
- 3) Restaurant can filter tables by their numbers on the top of the page. Search box shown in the design.
- 4) If the restaurant clicks on the box, they will be able to view the bill details as shown in the design. The bill details view is the same view shown to diners in the user web app.

Payment Status

Search by table number...

Table	Total	Remaining	Paid
A50	\$140	\$20	\$120

Upload Menu

Feedback page:

This page shows the feedback submitted by diners. This includes:

- 1) General star reviews (average) of food, ambiance and service.
- 2) Reviews by dish. Shows the reviews on the dishes in star system (average)
- 3) Text feedback (sorted by date)

The screenshot shows a mobile application interface for a restaurant. The top navigation bar includes 'Feedback', 'Order history', 'Feedback' (highlighted in black), 'Account', and 'Help'. The main content area is titled 'Feedback' and displays three average ratings: Food (4.0), Service (4.0), and Ambiance (4.0), each with a 5-star rating icon. Below this is a section titled 'Reviews by dish' containing reviews for various items:

Dish	Rating
Cheeseburger	5 ★
Salad	5 ★
Fries	5 ★
Pad Thai	4.0 ★
Cheeseburger	5 ★
Cheeseburger	5 ★
Fried Fish	5 ★
Butter Chicken	4.7 ★
Cheeseburger	5 ★

The screenshot shows a mobile application interface for a restaurant. The top navigation bar includes 'Sign out', 'Payment status', 'Menu', 'Order history', 'Feedback' (highlighted in black), 'Account', and 'Help'. The main content area is titled 'Feedback' and displays a section for 'Written Feedback' with four entries:

Review	From	Date
"The service was amazing!"	From John Doe	Sept 2020
"The food was good but did not like the drinks"	From John Doe	Sept 2020
"The chicken was undercooked, when I spoke to the waiter he ignored me."	From John Doe	
"The service was amazing!"	From John Doe	Sept 2020

Order history page:

This page contains a table the displays a list of all transactions made in the restaurant via Settle.

This page will include:

- 1) Search by table number
- 2) Filter by date
- 3) Export to Excel feature

The screenshot shows a mobile application interface for a restaurant. On the left is a vertical navigation bar with an orange background. The items in the bar are: Sign out, Payment status, Menu, Order history (which is highlighted with a black background), Feedback, Account, and Help. To the right of the navigation bar is the main content area. The title 'Order History' is centered at the top. Below the title are three buttons: 'Search by table number...', 'Date Range' (with a dropdown arrow), and 'Download Report'. At the bottom is a table with a grey header and six columns: Transaction ID, Table Number, Amount Paid, Items ordered, Tip Amount, and Transaction Date. The table body is currently empty, showing five rows.

Transaction ID	Table Number	Amount Paid	Items ordered	Tip Amount	Transaction Date

Admin portal

The admin, in addition to the features above, should be able to:

- 1) Add restaurants:
 - A) Restaurant photos
 - B) Restaurant name
 - C) Restaurant menu
 - D) Generate QR codes for restaurants
 - E) Set up restaurant banking account
- 2) View feedback for all restaurants
- 3) Remove a restaurant
